Lutheran Brotherhood Hold Annual Banquet.

The Brotherhood of the Lutheran church met Monday evening at the parish house for their annual banquet. Forty men were present and the bars of formality were let down and all enjoyed themselves to their fullest capacity.

The banquet was planned, cooked and served by the men themselves, under the charge of Messrs. Hoga, Sandall and Hinsolt who composed the kitchen committee. The tables were tastefully decorated and laden with an excellent feed. Following is the menu:

Oysters, (raw and stewed) Celery
Pickles, Olives, Roast Pork
Sauerkraut and Wienies
Baked Potatoes, Doughnuts

After the feed, C. O. Weingand, president of the organization, called the meeting to order and presided in a most masterly and humorous manner. Before calling on the speakers, he presented to the men the "every man canvass," which was taken up at the last meeting of the national organization in Ohio, and later by the state. Mr. Weingand is one of a committee of three in this state to look after the canvass of all Christian men, and he spoke largely upon the necessity of pushing this canvass. The date for the canvass has been set and at that time a religious canvass will be made of every man in the United States.

The toast master then introduced the speakers of the evening in a very "serious" manner and nearly every man present responded in some way. Messrs. A. W. Shilling, S. E. Sebastian, O. H. Cressler, E. Trapp, Chas. Burke, Albert Haspel, Julius Hoga, Frank Bretzer and Rev. C. B. Harman all responded with quite lengthy and interesting talks.

To Change Parcel Post Weights.

Word has been received at the local postoffice of a change in the parcels post laws that will materially add to the efficiency of the service, especially among the farmers. The weight of parcels that can be shipped will be changed for the first and second zone, within 150 miles of the shipping point, from twenty pounds to fifty pounds which will permit the farmers to order groceries, and even flour, and have them sent out by parcels post.

In all the other zones the weight will be changed from eleven pounds to twenty pounds and the rates will be lowered in all zones. The proposition has already been put up to the Interstate Commerce commission and has been passed. Postmaster Davis is expecting at any time to get information to the effect that it has been put into use. The new rates will go into effect January 1, 1914, if the intentions of Postmaster General Burleson are carried out.

Postmaster Davis has already received instructions that all books weighing over six ounces must be sent by parcels post, but that books weighing only six ounces or under, can be sent at the regular rate of one-half cent an ounce.

Public Notice.

An article, together with a notice of incorporation of The North Platte General Hospital Association, was published in The Tribune on December 5, 1913. In explanation thereof, I desire to say that the Articles of Incorporation were subscribed by D. T. Quigley, J. S. Twinem and George B. Dent with the distinct understanding on the part of J. S. Twinem that said Articles of Incorporation should also be signed by Dr. Voorhees Lucas, and that the incorporation was for the purpose of forming the nucleus for a general hospital association, which all of the physicians of the city could join, soon afterwards Dr. Lucas and the undersigned learned that one of the incorporators intended to exclude some of the physicians of the city, and therefore, Dr. Lucas refused to sign the articles of incorporation and the undersigned refused to have anything further to do with the incorporation. Neither do I intend to have anything to do with the operation of any hospital under the present organization and management. The only object of Dr. Lucas and myself was to join together the medical staff of this city in the support of one great general hospital. This object having been defeated through the instrumentality of one man, I desire the public to understand that I have nothing to do with the above incorporation.
